# CRYSTAL COLLECTION

Express your sparkle and glamour with our beautiful **CRYSTAL COLLECTION**.

These crystals are set in our solid bronze accent pieces. Cast in Europe of high quality Czeck glass, the gems will keep their "bling" for many years. This is truly jewelry for your home.

To complete your look, choose from any of the five metal finishes we offer for this line. Silvertone Bright - SB, Silvertone - S, Bronze Bright - BB, Bronze - B, and Oil Rubbed - OR. Please note that Verdi Gris finish is not available with the Crystal Collection.

*Special Notes: Do not use the jeweled metal pieces on floors or horizontal working surfaces as they will scratch. Be sure to protect the metal pieces and the crystal jewels during installation and grouting. Consult the Saint-Gaudens binder or website for the installation suggestions and tips. Please be gentle with them in cleaning, and do not expose them to harsh cleaners and chemicals since that could harm their beauty.*

Carmel Crystal, Silver Bright 140CC-SB

Acanthus Large Crystal, Bronze 109ALC-B
